

## Femarelle® Rejuvenate - for the management of the primary symptoms that come with the decline in estrogen levels

Femarelle® Rejuvenate has been shown in numerous studies to promote hormonal balance. Enriched with biotin and vitamin B<sub>2</sub>, this unique formulation supports women through the changes that follow the decline in estrogen levels. It helps manage mood swings, maintain healthy skin and hair, and reduce fatigue, offering comprehensive support during this transitional phase.

## Femarelle® Recharge - a non-hormonal solution for the management menopause symptoms swiftly and safely

Femarelle® Recharge, endorsed by doctors worldwide, has been proven in numerous studies to alleviate menopausal symptoms swiftly and effectively. Enhanced with vitamin B<sub>6</sub>, this proprietary formulation provides an extra boost to support hormonal balance. Femarelle® Recharge is designed for women seeking rapid and reliable relief from menopausal challenges.

## Femarelle® Unstoppable - assisting your customers to maintain bone and vaginal health

Femarelle® Unstoppable has been shown in numerous studies to promote new bone formation in menopausal women. With the addition of calcium and vitamin D<sub>3</sub>, it provides the essential nutrients needed to strengthen bones. By combining new bone formation with a lower calcium dosage, it minimizes the risk of overdosing, reducing potential negative impacts on the body. Additionally, Femarelle® Unstoppable has been demonstrated to alleviate vaginal dryness, while vitamins B<sub>2</sub> and B<sub>7</sub> support the lubrication of vaginal walls and enhance the energy metabolism. This comprehensive formulation supports women in maintaining vitality and prolonged well-being.
